AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions and listings of claims in the application:

OFFICIAL

Listing of Claims:

1. (Currently Amended) A system for selling vehicles having a plurality of available suspension options, comprising:

a communication module that facilitates a vehicle seller obtaining information and providing information;

a data module that is accessible using the communication[[s]] module, the data module providing information regarding the plurality of available suspension options available; and

an adjustable suspension module supported supportable on a demonstration vehicle that is adjustable to perform as each of the plurality of available suspension options such that a customer is permitted to sample the various plurality of available suspension options using the demonstration vehicle.

2. (Original) The system of claim 1, including an ordering module that facilitates the vehicle seller placing an order for a vehicle containing a suspension module chosen by the customer.

3. (Original) The system of claim 1, including a customer profile module that indicates a customer profile based upon information provided by the customer and provides a listing of available suspension options that correspond to the customer profile.

4. (Currently Amended) The system of claim 1, ~~in which~~wherein the data module and the communication module are ~~supported~~supportable on said demonstration vehicle.

5. (Currently Amended) The system of claim 1, including a controller that is supported on the demonstration vehicle and is used to make adjustments to the adjustable suspension module.

6. (Original) The system of claim 5, wherein the controller is programmed to automatically make the adjustments.

7. (Original) The system of claim 5, wherein the controller makes the adjustments responsive to user input.

8. (Currently Amended) A method of selling a vehicle that includes one of a plurality of available suspension options using an adjustable suspension module, comprising the steps of:

- (A) informing a customer of the plurality of available suspension options;
- (B) adjusting the adjustable suspension module to perform as a first one of the plurality of available suspension options;
- (C) permitting the customer to sample the first one of the plurality of available suspension options;
- (D) adjusting the adjustable suspension module to perform as at least one other of the plurality of available suspension options; and
- (E) permitting the customer to sample the at least one other of the plurality of available suspension options.

9. (Currently Amended) The method of claim 8, including determining ~~the-a~~ customer's choice, ordering the vehicle and specifying a chosen one of the plurality of available suspension options to be included with the vehicle.

10. (Currently Amended) The method of claim 8, wherein the adjustable suspension module is ~~supported-supportable~~ on a demonstration vehicle and steps (B) through (E) are performed using the demonstration vehicle.

11. (Currently Amended) The method of claim 8, including determining a customer profile and making a recommendation of one of the plurality of available suspension options based upon the customer profile.

12. (Currently Amended) The method of claim 8, wherein the available suspension options are for passive suspension systems and the adjustable suspension module comprises an active suspension system and wherein step (B) includes setting parameters of the adjustable suspension module so that the active suspension system performs like the first one of the plurality of passive suspension systems.

13. (Previously Presented) The method of claim 8, wherein steps (C) and (E) include permitting the customer to ride in a demonstration vehicle that includes the adjustable suspension module.

14. (Previously Presented) The method of claim 8, wherein steps (C) and (E) include permitting the customer to drive a demonstration vehicle that includes the adjustable suspension module.

15. (Currently Amended) A method of selling at least one type of vehicle that has a plurality of available suspension options, comprising the steps of:

providing a demonstration vehicle that has an adjustable suspension module;

permitting a customer to ride in the demonstration vehicle; and

adjusting the adjustable suspension module such that the adjustable suspension module performance corresponds to at least one of the plurality of available suspension options.

16. (Currently Amended) The method of claim 15, including adjusting the adjustable suspension module to correspond to at least one other of the plurality of available suspension options.

17. (Previously Presented) The method of claim 15, including permitting the customer to drive the demonstration vehicle.
